

Let's hear it for our volunteers!

In 2018, over 4,000 people volunteered with Food Forward by harvesting from backyards, gleanng at farmers markets, distributing healthy fruits and vegetables, representing us at community fairs, and supporting our program staff in our offices. These volunteers contributed over 22,000 hours to our efforts to reduce food insecurity and food waste. We never could have accomplished all we did without their help!

“The volunteer experience at a harvest is always an opportunity to influence people to continue to make an impact. Everyone shares stories, learns from each other, and grows from being a part of something greater than themselves.”

Rebecca,

Backyard Harvest Pick Leader
